

REMARKS

Claims 1-12 as originally filed under Article 19 in the PCT application have been canceled herein, and the subject matter thereof represented as new claims 13-45. The new claims conform to regular U.S. practice by eliminating multiple dependencies and clarifying the wording.

In addition, a new Abstract and a substitute specification are included herewith to conform to regular U.S. practice. In the substitute specification, headings have been inserted, and clarification has been made for the purposes of making grammatical sense and for proper English. No new matter is introduced hereby. A marked up version showing the changes made from the verified translation is also attached. Applicant respectfully requests that the amendment and substitute specification be entered.

Respectfully submitted,

Thomas Dennert et al.
